DEXTER

DEMOCRAT - 68th ASSEMBLY DISTRICT

Hello Friends, Supporters, and Volunteers!

You can help me be a trailblazer and join the growing number of women in government and leadership roles in our communities. Working families need to have the perspective and experience of BOTH men AND women to represent their interests in Madison. The front of the literature that I hand out when out in the district knocking on doors clearly states, "I will fight for healthy families and healthy communities." I mean not just physically healthy, but economically healthy as well. Our own Lt. Gov. Barbara Lawton has been working on behalf of kids and women and families for a long time because she knows that the economy of our state depends on this strong and healthy foundation. Lt. Gov. Lawton and other women leaders and elected officials will join us in Eau Claire on September 15 for the Women in Leadership

ship Making HERstory event. I'm excited that Lt Gov Lawton is endorsing my candidacy with a visit to Eau Claire, and I would be honored to join her as another strong female voice in Madison! Thanks to all of you for working to put more women in leadership roles and help me be

the first woman to represent the 68th Assembly District in Wisconsin.

Gratefully, Kristen

Take notice!

Club for Growth, a conservative group representing large corporate interests is doing push-poll calls. They are spreading blatant mis-information through false phone surveys. Throughout the campaign, information about these tactics and what the opponent or independent groups are up to is very valuable. If you get a call from this group or any other with similar tactics, please call the Dexter campaign office to let us know right away so we can respond appropriately.
